

## Program Costs

Costs include tuition, book fees, housing and meals, scheduled activities and excursions, comprehensive health and personal liability insurance.

Housing is in carefully selected French families, one student per family, on a demi-pension basis (seven breakfasts and five dinners a week, plus Sunday lunches).

To fulfill community activity requirements for French Practicum core program and for local transport, students will incur additional minor expenses.

Airfare is not included, with the exception of the round trip flight for the Marseille program's study tour in North Africa.

The Aix program costs include one optional course at the Institut d'Etudes Politiques or, in the framework of "AUCP Direct" (Full-Year & Spring only), three optional courses at the University of Aix.
