Discover the AUCP on-line French Cookbook!

One of the advantages of a homestay in a French family is the delicious food!

The AUCP Fall 2009 students who launched the very first AUCP on-line French cookbook will most certainly agree. Choosing their favorite dishes from their host families, students compiled a memorable collection of delicious easy-to-do recipes. From fresh goat cheese and olive spread to an intense dark chocolate cake decked out with strawberries and whipped cream, each recipe includes a special student commentary and a culinary tip transmitted from the French family "chef."

Cooking and sharing meals in France create the bonds that last a lifetime. All AUCP students benefit from individual homestay placement and all find their personal way to engage in French family life. This thoughtful cookbook is but one happy result.

A statement of gratitude and a memento of the AUCP experience of living with and like the French, this very personal collection of shared pleasures extends itself to you - our friends & family at home.

With a warm thank you to our contributing students and to their French hosts, we wish you *bon appétit!*
